

Project Name: **Kansas City Southern Railroad**

Project type: Tenant finish

Address: 114 West 11<sup>th</sup> Street  
Kansas City, Missouri 64105

Completed: 2006

Description: Renovation of the existing lobby was designed to create a larger lobby with a seating area and a built in security desk. The original marble wall panels and terrazzo floor were retained. New raised ceilings and lighting was introduced to open up the space and provide a softer feel to the lobby and waiting area. An archive area of photos and a model train area were installed to show the history of the Kansas City Southern Railroad.
